

Call for papers: SABA'16

In spring 2016 (31st March - 3rd April) the 3rd students symposium on archaeology (SABA) will take place in the World-Heritage city of Bamberg.

The conference will encompass all of the branches of archaeology taught at the University of Bamberg. These are as follows:

- Prehistoric Archaeology
- Medieval Archaeology
- Post-Medieval/Historical Archaeology
- Archaeology of the Roman Provinces
- Geoarchaeology
- Islamic Archaeology and Art History

However, submissions from other branches of archaeology will be considered as well.

Prospective archaeologists will have the opportunity to present their theses (BA/MA) to a wider audience and participate in a constructive discourse. Students of the archaeological sciences from all over Europe are invited to the conference. We will provide partial covering of travel expenses, for all speakers.

The deadline for abstracts (max. 2500 characters, language: English or German) is the 17th of January, 2016. Please send the document to orgateam-saba16@t-online.de as a **PDF** file.

Further information is available at: www.saba2016.wordpress.com

We hope to have piqued your interest and are looking forward to many interesting abstracts, especially from international students.

The SABA '16 committee
